BeneHeart C1A/C2

AED Trainer

Smarter & Faster

C1A/C2 AED Trainer

C1A/C2 AED Trainer is designed specific for training first-aid personnel before they use BeneHeart C1A/C2 AED. The trainer fully simulates the BeneHeart C1A/C2 AED in the training guide and drill program, with a view to help first-aid personnel to get familiar with the AED and grasp required basic operation skills when using it in the first-aid process.

High Level Simulation

- Appearance, interface and operation process identical to the 'real' C-series
- Preset 6 basic scenes and 4 simulation scenarios to better meet training needs
- Meet the latest AHA/ERC guidelines
- Support semi-auto and fully auto modes

Easy to Maintain

- The AED trainer is equipped with high quality training pads. These high quality pads will last for multiple uses
- The trainer uses standard AA batteries. These batteries are included with the Trainer

Specifications

AED Trainer
